Aero Kinetics is sponsoring a ground school program held at the Denton Airport Terminal Building Conference Room. Thomas P. Turner, Mastery Flight Training, Inc., is M.S. Aviation Safety MCFI and FAA Central Region CFI of the Year will lead the ground school program with focus on the operation of GA aircraft and safe flying reviews. You are encouraged to bring your airplane POH.

Objective - Understand More of GA Flying; Be Safer, More Knowledgeable and Competent as PIC

Ground School Agenda INCLUDING Case Studies:

1. **The Psychology of Fuel Exhaustion**
2. **Risk Management - Common Causes of GA accidents, A/C Owner Responsibilities**
3. Real-World **IFR** - Weather Factors; ATC Operations, A/C Operating Information General Aviation GO-Decision for IFR vs “VFR Not Suitable” Situations – A/C, Pilot and Passenger Considerations
4. Proper SOPs for Briefing **Approach Plates** – Going Missed Information as Second Critical Brief
5. Avoiding the **Top 10** Causes of Fatal General Aviation Accidents...and How to Avoid Them
6. “I Would NEVER Do That”
