

So, You Want to Land on Something Other Than Grass...

This one hour event will refresh those of us who are comfortable landing on the grass with the local airspace and procedures for operating in that airspace. We will review the definitions of the National Airspace System and discuss procedures for operating in Class E, D and C such as Emporia (KEMP- Class E), Topeka Billard (KTOP- Class D) and Wichita Mid-Continent (KICT- Class C). There will also be some role playing to build confidence.

Directions: Travel from Emporia south on Commercial Street (Kansas Hwy 99) for five miles, airport will be on the right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
