Representative DANIEL JAMES LEVY

Register now for a new webinar with a new round of unusual approaches! From Boston's Logan International to Palm Springs, California and several points in between (even outside the U.S.), we'll review eight unique and unusual approaches. Whether its terrain, obstacles, noise abatement or any number of other causes, it doesn't take much for airspace designs to quickly become "unusual." Join us as we talk about the situations unusual approaches create for pilots and how to navigate them with confidence. And, if you haven't seen the original Unusual Approaches webinar, click this link to view the recording.

Directions: To attend the Unusual Approaches—Part 2 webinar, please register using this link: <https://cc.readytalk.com/r/m70omfao76bv&eom>
Once you register, you will receive a confirmation email that will contain your unique link to the webinar.
You will not need to register on the faasafety.gov site to receive credit for attending this online webinar.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
