

Aviation Accidents Then Now and the Effect of New Technology

We will compare accidents from the 1950s and today discussing causal factors. All of the accidents discussed are local in nature to Nebraska. We will also look at new technology and what effect it has on our GA accident rate.

Directions: This safety meeting is hosted by the Nebraska Aviation Council and will take place in the presentation hangar in conjunction with the Nebraska State Fly In and Airshow at the Hastings Airport.

A message from the National FAASTeam Manager
