

## An In-depth Study into the Pinnacle Airline Flight 3701 Accident

On October 14, 2004, Pinnacle Airlines flight 3701 crashed near Jefferson City, Missouri, killing two crew members. The CRJ200 was on a repositioning flight from Little Rock, Arkansas, to Minneapolis, Minnesota, and there was no flight attendant or passengers on board. The crew caused the accident chain of events, which led to the crash. Mark Gaffney was flying for Pinnacle Airlines (now Endeavor Airlines) in 2004 when the accident occurred and can add a unique perspective on the accident. The presentation goes into detail on the chain of events but also goes over CRJ systems and how they related to the accident.

**This is a closed event for UNO students only.**

The seminar will take place in a classroom at the College of Public Affairs & Community Service building located on the University of Nebraska, Omaha campus.
