

IMC Club Monthly Meeting

This is the monthly meeting of the Louisville IMC Club. This month we have two very different scenarios. One involves the hazards of winter flying, though not in the manner you would normally expect. The other highlights how important understanding approach plates can be. There will also be a short approach plate quiz. As usual, we will have our resident retired controller on-board to give a perspective from the ATC side of the house and answer those questions that you'd rather not hear on the frequency.

Directions: The Aero Club is on the field at KLOU. Enter the building at the main double doors. Turn left into the conference room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
