

Flight In the Danger Zone - Non Towered Airport Operations

Operations at non-towered airports can be a high-risk mixing bowl of jets, turbo-props, single engine trainers, and light sport aircraft. Communications are optional. Learn what you can do to improve your safety and others in the pattern with you. Volunteer to participate in a traffic pattern scenario skit that gets everyone in the room involved. You may very well see yourself in many of the traffic conflicts that occur in the skit. This presentation has been performed in numerous locations with much success. Register Today; Seating is limited!

Directions: Please see map link.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
