

FASSTeam presents:

Annual FASSTeam Pilot-Controller Forum - Hosted by the IMC Club

This meeting will be a combined Louisville IMC Club and Third Thursday FAASTeam meeting. This meeting is all about putting pilots and controllers together in the same room to get a glimpse of what it is like on the other side. The intent is to develop a better understanding of each other's role in the air traffic system and answer those burning questions that you would never ask on the frequency.

Best operating practices and how to work within the SDF airspace will be among the topics discussed. Come find out why that request may have been denied. Join us to understand how to ask the right questions, reduce your and the controller workload, and work within the system to get what you want.

Directions: The Aero Club is on the field at KLOU. Enter the building at the main double doors. Turn left into the conference room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
