

FAASTeam presents:

Annual FAASTeam Pilot-Controller Forum - Hosted by the IMC Club

This meeting will be a combined Louisville IMC Club and Third Thursday FAASTeam meeting. This meeting is all about putting pilots and controllers together in the same room to get a glimpse of what it is like on the other side. The intent is to develop a better understanding of each other's role in the air traffic system and answer those burning questions that you would never ask on the frequency.

Best operating practices, preventing pilot deviations, and how to work within the SDF airspace will be among the topics discussed. Come find out why that request may have been denied. Join us to understand how to ask the right questions, reducing both your's and the controller's workload, and how to work within the system.

Directions: The Aero Club is on the field at KLOU. Enter the building at the main double doors. Turn left into the conference room.

A message from the National FAASTeam Manager
