

Winter Flying Tips and Aircraft Heater Safety Information

Winter Flying in most parts of the U.S. can adversely affect flight operations. Come and learn what to look out for, along with safety tips to help you be better prepared to properly conduct cold weather operations. We will also discuss maintenance and safety tips for combustion and muffler type aircraft heaters,

Directions: Enter main double doors from parking lot and go left just inside into conference room.

COVID-19 Statement: Prior to attending a safety seminar, please review and abide by current CDC, State, and Local health guidelines! If you have signs of a fever or respiratory illness, including cough, difficulty breathing or shortness of breath, or have traveled out of the country within the past 14 days. Do Not Come To The Meeting!
