

## Nashville IMC Club Monthly Meeting

Despite the title, this month's scenario has nothing to do with a rod and reel. It does, however, have everything to do with how you would handle a critical IMC emergency as an IFR pilot!

Thirty seconds in the clouds turns a short practice flight into a serious emergency. Now what will you do to salvage the situation and get safely on the ground a scant 3,000 feet away?

**Directions:** Meeting will be held in the offices of Nashville Flight Training. Please use map link to show location.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
