

Non-Towered Airport Ops

Non-Towered Airports provide a great deal of flexibility to the airman, and many different types of operations may be occurring at any time. Please join FAA Safety Team Program Mgr. Bob Hill, as he discusses mitigating risk at non-towered airports. A review of non-towered airport procedures, mishaps, and considerations. Best Practices, Air Events, The Overhead Approach, Mid Air Collisions, and much more,

Directions: Please utilize the map link. Please note a change in venue. Proceed to the Main FBO, located in the building located to the right.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
