

Nashville IMC Club Monthly Meeting

Professional flying means rolling with the changes thrown your way. However, a last-minute route change has you scratching your head, while the passengers in the back twiddle their thumbs. The simplest solution makes things harder for you, but the safest one could be a challenge on your equipment. How will you get this flight underway?

Directions: Meeting will be held at the Gassaway Building at Nashville International Airport. Please use map link to show location.

A message from the National FAASTeam Manager
