

The Monthly EAA Chapter 1494 IMC/VMC Meeting

Please join our host, Certified Instrument Flight Instructor, Bob Dilk.

The winter season in East Tennessee can limit windows of opportunity to fly our GA aircraft. Spring and summer flying can be especially rewarding, but we must remember flying ability is a perishable skill. Becoming proficient after the winter should include; reviewing regulations, weather, and basic stick and rudder skills.

The FAA Wings program can be very helpful in getting you safe to fly this year.

The meeting will be held in the Morristown Airport FBO main conference room. A road map is linked if needed.

A message from the National FAASTeam Manager
