

Memphis Air Traffic Control - Class B Operations for GA & Tower Tour Brief

This event is a briefing for two Air Traffic activities. First, an invitation from Memphis for General Aviation aircraft to conduct TakeOff & Landings at Memphis Intl. Second, a Pre Brief valid for tower & approach control tours (to be scheduled at a later date.) These opportunities are rare so take advantage of them - Instructors, bring all of your students to this briefing and for touch & goes, let them talk to tower and become comfortable doing so. Please register for this event. It will simplify security issues and speed up the process of getting into the building.

Directions: Memphis FSDO Main conference room - Look for the J over the main entrance near the center of the building. The building is near the back of the complex on the left side - plenty of parking. See attached map of the area.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
