

Olive Branch ATC, Stall / Spins, Loss of Control & Flight Reviews

Controllers from the Olive Branch tower will discuss controlled airport operations. Jack Estes, Morris Ray and others will discuss stall / spin, aircraft control and quality flight reviews. The majority of all accidents involve some sort of loss of control and/or lack of proficiency. If we are truly proficient (as opposed to current) why does that happen?

Directions: Downtown Aviation Flight School located on the North side of the Olive Branch Airport

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
