

The FAA Safety Team & ELM Tower presents:

Elmira-Corning Regional Airport RSAT Meeting

The FAA has made the reduction of Runway Incursions and Surface Incidents one of its top priorities. The purpose of this meeting is to assemble the individuals who actively engage in the movement of aircraft and vehicles on the Elmira-Corning Airport Operations Area (AOA). During which time a locally focused open discussion on how to improve runway safety can occur. We discuss the operation of the airport, from both the control tower and the user perspective. We also review any past runway incursions and surface incidents. All pilots are encouraged to attend.

Directions: Please see map link for directions.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
