

FAA Safety Team, ROC FSDO, ROC ATC presents:

**Fly Safely and Often at Rochester WINGS 2015!**

David St. George, FAA Designated Pilot Examiner (DPE) and FAA Safety Team Lead Representative will present Risk Savvy Piloting: Step Up and Fly Safely. 85% of GA accidents are human factors failures. We, the pilots, are the "weak link" in the safety chain. Our new technology is amazing, airplanes are exceptionally safe, but accidents continue to plague our industry. This is exceptionally good news only because we can fix this immediately and right now! The difficulty is taking the first step and committing to safer operations. You can achieve a higher level of safety with a correct risk-management system. The proper approach to managing risk is now well-established in corporate and airline flying and this has led to a dramatic decrease in accidents. It is time for GA to "step up and fly safely!" Don't miss this exciting, transformational seminar. Increase your aviation safety now! Click on the link below for details and to register TODAY!

**Directions:** Take the NYS Thruway to Exit 46, proceed I-390N to Exit 17, turn right, proceed to 1295 Scottsville Road.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
