

The FAA Safety Team presents:

# Kingston Bimonthly Safety Meeting

Don't be caught without a Safety plan. The GAJSC has determined that returning to flight operations after a period of inactivity, and/or to a new or different aircraft, increases the risk of an accident. This program will feature a discussion on owner/operator maintenance. Has your aircraft sat all winter? What maintenance tasks can you legally accomplish? What procedures must you follow? We will also talk about AOA (Angle of Attack). Fighter pilots know all about this. We happen to have a few fighter folks in the group! For the tail wheel crowd we will have something for you also. These are just a few of the issues we'll discuss at this informative briefing. Don't miss it! Learn the tools, skills and knowledge to operate safely and avoid the accident. Click on the link below to register TODAY!

**Directions:** Take Rt 209 to Enterprise Dr. North. Go 1/10 mile left to Town Hall complex. Senior Center building is on left.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
