

Trust Your Instruments - Understanding and Identifying Instrument Failures

This will be a two-hour discussion hosted by aviation professional John Likakis and Jamie Hildenbrandt.

In this seminar we will discuss aircraft instrument errors. This will be a hands-on experience with actual aircraft instruments available for pilots to handle and see firsthand how these instruments work; what can go wrong with them; and how to detect inaccuracies.

From Creble Rd turn onto Old School Road, then take the next slight left. Meeting will be held in the main facility building.
