

Your Aviation Long-Life Learning Plan

During this two hour seminar, Fred Lee will discuss continuing education and proficiency. Data shows that Professional Pilots have far fewer accidents and incidents than the typical CFR Part 91 Pilot. Creating a Long- Life Learning Plan can enable you to "Fly Like a Pro." Pilots who do more regular voluntary flight checks, continue with educational aeronautical review, and going beyond the required standards of the insurance companies, design learning plans that invests in their long term safety.

The Saratoga County Airport is located Southwest of Saratoga in Ballston Spa NY. Take Geyser Road to the airport entrance, parking is directly in front of the main building. This seminar will be held in the upstairs conference room of the newly renovated FBO Building.
