

AOA Awareness and the Value of Angle of Attack indicators

This two hour event, coordinated by the Albany FAASTeam and presented by FAASTeam Representative, Ningyun Cai. It will contain information of interest to all pilots.

Stalls and spins account for many general aviation accidents. Increasing stall awareness training and the use of angle of attack indicators could significantly reduce the number of stall/spin accidents.

This event will be held at Av Flight, located at the southeast side of the airport below the beacon and tower. This seminar will be held in the 1st floor Conference Room at Av Flight at the Plattsburgh Airport. Street address: 1 Alabama Street, Plattsburgh, NY. No landing and facility fees for aircraft <12,500lb.
