

Crosswinds: Takeoffs and Landings at the Edge

Forty percent of all General Aviation Accidents happen during low-level maneuvering flight. This includes the traffic pattern. Join us for an interactive presentation on: •The Crosswind Component •Crosswind Scenarios •Danger Zones and Personal Minimums along with a lively discussion on proper procedures and techniques.

Directions: Airport Authority Conference Room

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
