

FAASTeam presents:

Accident Causes

Pilots love to speculate about what caused an accident. So, we're going to talk about the types of accidents happening in our local area and have a group discussion about what might have caused those accidents. We will then compare them to findings in similar accidents from the NTSB database. Now this is going to be memorable!

Directions: Airport Authority Conference Room

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
