

IMC Club Monthly Meeting - Thunderstorm Encounter

This will be an open discussion on the use of CRM and ADM regarding weather along our route of flight. We will use a video presentation of a scenario to spark a conversation on in-flight decision making. The IMC Club, through its nationwide chapters provides organized “hangar flying” focused on building proficiency in instrument flying. Safety and proficiency are developed through education and experience. These monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. You do not have to be instrument rated to attend. Click on the link below and register TODAY.

Directions: Conference room. See map link in additional Information section below.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
