

## What NextGen Will Do For You!

Every flight, whether it is VFR or IFR, actual or forecast, requires an accurate knowledge of available resources. Modern trends in technology have provided new tools such as the NextGen enabled weather, ADS-B, FIS and TIS. This is an important seminar for pilots who want to add to their knowledge base and learn how to use these new NextGen tools, helping them make safer flight decisions. Don't miss this event. Click the link below and register TODAY.

**Directions:** Conference Room Terminal Building  
See the map link in the addition seminar information section below.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
