

Lost Over Linden

Please note that you are already passed the MAP. Visibility is not too good and you don't see the airport. To make this discussion even more interesting you could present that you lost the visual contact with the airport due to clouds moving in or visibility going down. To increase the level of difficulty we could lose radio communication at that time. Now, what would you do?

Please join us and bring a friend. Click on the link below and register TODAY!

Directions: The seminar will be held in the Conference room.

See map link in additional Information section below.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
