

When Technology Fails

Advanced avionics and equipment in modern light airplanes is great. However, if a pilot doesn't have a complete understanding of how to operate that equipment a simple mistake can lead to big trouble. We will use a video presentation of a scenario to spark a conversation on in-flight decision making. Don't miss this exclusive event. Click on the link below and register TODAY.

Directions: The seminar will be held in the conference room below the restaurant.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
