

Tailwind Landing Considerations

How do you decide which approach to fly when the choice is not so obvious, and each choice has unique challenges associated with it. This is a real world situation and your evaluation and decision making can make the difference between an uneventful approach or a potentially hazardous one. How much of a tailwind is too much? We will use a video presentation of a scenario to spark a conversation on in-flight decision making. Don't miss this event. Click on the link below and register TODAY.

Directions: The seminar will be held in the conference room below the restaurant.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
