

## Frozen and Inverted in Bedford

At this month's round table, we will be talking about an Icing encounter over KBED and how it could have been avoided with better preflight planning and a personal minimums checklist. A couple of apps for the iPad will be available to share. If time permits, we will use WING X or your favorite tablet navigator to go over your favorite IFR approaches. Don't miss this event. Click on the link below and register TODAY.

**Directions:** The meeting will be held in the Arnold Palmer Airport Authority Conference room. There will be signs posted in the terminal.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
