

Non-Towered Airport Operations

Towered and non-towered airports each have unique hazards. Procedures can vary greatly from one airport to the next. Come join us as we cover safe operations in and around non-towered airports as well as airports with a control tower. Learn how to handle engine failure in the pattern in a single engine aircraft. Don't miss the exclusive event. Click the link below and register TODAY.

Directions: The meeting will be held in the Conference Room in the lower level of the Terminal Building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
