

FAASTeam presents:

# Getting The Most Out Of Your Preflight Software And Inflight EFBs.

Frank Beresnyak will be speaking about integrating your iPad or EFB into your flight deck.

The different options, software and mounting available, and how to use that software to a pilots advantage when in comes to planning and executing a typical flight. Make sure you bring your iPad or EFB to follow along. John Miller will be speaking about ADM and using the OODAloop in real world scenarios. Expect a refreshing discussion on decision making and how to use it to get current and stay current. Which bucket is full for you...the experience bucket or the luck bucket? Valetta Mowry will be speaking about Lockheed Martin's new website 1800wxbrief.com and DUATS. A review on how to file flight plans and using the different options to do so.

**Directions:** For information on KIDI, see the Additional Information section below.

The presentation will be in the main terminal.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
