

FAASTeam presents:

# Aviation Weather Service

IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building instrument flying knowledge and skills.

The organization network promotes a safety culture through continued education and believes that safety and proficiency are developed through education and experience. Monthly Meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals offer informative WINGS presentations. You do not have to be a rated instrument pilot to attend. Membership in the international IMC Club is encouraged but not required. At this meeting, Bob Coblenz from the National Weather Service will guide us through the Aviation Weather Center web site and explain how to gather information for our next flight. He'll also explain how the forecasters make their prediction models and why they aren't always completely accurate. For more information and to attend this event, click the link below and register TODAY.

**Directions:** The seminar will be held in the conference room below the restaurant.

## Event Details

**Wed, Nov 18, 2015 - 19:00 EST**

**Terminal Building**

473 Airport Road

Conference Room

Butler, PA 16002

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
