

CFI Open Forum

At this open forum, we will discuss how to avoid loss of control (LOC) and how to teach risk strategies to prevent LOC. This interactive presentation also leads the participants in a discussion of best practices for developing evaluation scenarios and how to effectively teach. It allows FAASafety Team Program Managers and designated FAASafety Team Representatives together with CFIs and DPEs to discuss the benefits of teaching loss of control. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Click the link below and register TODAY.

Directions: The meeting will be held in the Conference Room.
