

Overview of Experimental / Light Sport Aircraft Operation

Watchfulness is the best defense against bogus parts. A helicopter goes down and investigators find the blade clamps failed to meet certification standards. An engine fails and the paper trail on the failed part ends without a connection to the helicopter manufacturer whose name is stamped on the part. To learn more about this topic and how to avoid a related accident, click on the link below and register TODAY.

Directions: For information on KIDI, see the Additional Information section below. The presentation will be in the main terminal. Aircraft parking available on ramp area.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
