

## Approach Lighting Systems

Approach Lighting Systems (ALS) are designed to guide the pilot onto the runway and are an important part of every instrument approach. Briefing the approach lights and knowing what to expect can help you avoid confusion during a very critical phase of the approach. At this meeting we'll discuss the different systems in use and how the components guide us to a safe landing. Don't miss this exclusive event. Click the link below and register TODAY!

**Directions:** The seminar will be held in the meeting room below the restaurant.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
