hambys@optonline.net

At this safety event, we'll discuss the dangers associated with Winter Flight Operations. Winter preflights, cold engine starting procedures, slippery taxiways and runways, and the dangers of snow and ice on wings and controls surfaces during takeoff and landings; are just a few of the topics that will be covered. Attend this safety event and warm up your winter operating tools!

Directions: Follow signs to the North Hangar.

Message from the National FAASTeam Manager:

FAASTeam Instructor Workshops have started. Find them in SPANS.
