

FAA Safety Team presents:

# The Art of Approach and Landing

Don't let your next approach and landing become a statistic on someone's chart. Come participate in this WINGs Safety event where proper techniques concerning aircraft control during the most critical phases of flight will be discussed. We can all become safer pilots through continued education; Don't Miss It!

Also following the Safety Seminar there will be a accuracy landing contest. Please see additional information for details!!!

**Directions:** Classroom will be set up at Lehigh Valley Airport Authority Hanger/Terminal

## A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
