Select #: EA0550912

FPM WILLIAM JAMES VANARTSDALEN

Single pilot resource management (SRM) is defined as the art and science of managing all the resources (both onboard the aircraft and from outside sources) available to a single pilot (prior to and during flight) to ensure the successful outcome of the flight. How do you teach SRM to your students? Do you use the 5P model? At this forum we'll discuss how and what to teach your students about SRM. Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Click on the link below and register today as seating is limited! Moyer Aviation will be providing hamburgers and hot dogs prior to the seminar starting at 6:00pm!

**Directions:** Please see map link for directions, seminar will be conducted in the FBO Hangar.

### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
