

FAA Safety Team presents:

Welcome to the Future

This seminar will begin with an interesting introductory briefing to NextGen and ADS-B Technology and will be presented by FAA Avionics Inspector Tim Annis from the Allentown Flight Standards District Office (FSDO), who brings 36 years of Avionics experience to this informative discussion. NextGen is coming! Are you ready? Do you know what to expect? We want to show you some of the concepts of NextGen and the equipment that you will need by 2020. Time permitting we will then switch gears and have FAASTeam Rep Mike Brubaker lead a discussion on some of the dangers of over reliance on Automated Systems. This should be an interesting evening, please click on the link below to register for this event!

Directions: Please see map link for direction, seminar will be in Keystone Hall, Room 202. Please see Additional Public Documents for College Campus Map.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants.
