

Talking About Takeoff & Landings

Our guest speaker for this interesting event will be Paul Senyak who has been a Designated Pilot Examiner for over 40 years. In Fiscal Year 2014 over 60% of the Allentown FSDO Accidents involved LOSS of Control during landing. Paul's vast experience as a DPE gives him special insight into weaknesses or mistakes pilots make during takeoff and landing. Please come on out and join the discussion to help reduce the number of accidents that occur during takeoff and landing. Also, following the Safety Seminar there will be a Spot Landing Contest, please see "Additional Seminar Information" for details about entering the landing contest !!!

Directions: Please see map link for directions, classroom will be set up in hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
