

Soaring Decisions

While crew resource management (CRM) focuses on pilots operating in crew environments, many of the concepts apply to single pilot operations (SRM). Please join us at this interesting seminar for a discussion on the art and science of managing all resources available to a Glider Pilot, prior to and during flight to ensure a successful outcome to each flight. As an experienced Glider Pilot instructing since 1978, our guest speaker Dave Cooke will give us practical insight into Glider (SRM). Freedom's Wings will be giving away a great door Prize so please join us and register on-line today! Check out the details in Additional Information.

Directions: Briefing will be held in the library meeting room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
