

## Speak Easy with Boston Class B Controller

If you are planning on flying into a Class Bravo Airport soon, this seminar is for you. Join us for a practical discussion between pilots and Boston Air Traffic Controller Kevin Plante. Topics will include KBOS runway configurations, parallel runway operations, wake turbulence, delays, and tips from experienced pilots and controllers.

Bring with you any questions or concerns and participate in the discussion. After the safety seminar for those pilots interested, Lance Boxer from Patient Airlift Services (PALS) will be presenting information on the mission of PALS.

**Directions:** Second Hangar East from brick office.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
