

FAA Safety Team presents:

Your Electronic Flight Bag (EFB) Properly Packed?

At this seminar we will look at ForeFlight Mobile as used on the Apple iPad and iPhone and its use for pre-flight planning as well as in-flight operation. We will discuss pre-flight planning in general including such topics as TFR awareness, IMSAFE, pilot/crew currency and airplane currency. We will specifically address how to use ForeFlight Mobile for such pre-flight planning tasks as weight and balance, route planning, weather briefing (area forecasts, airmets, sigmets, METARs, TAFs, and NOTAMs including TFRs. Lastly, we will illustrate how the iPad can calculate the crosswind component using a calculator app.

A Pancake breakfast starts at 8:30 am, please see additional information for details. Please click on the link below to register for this event!

Directions: From Route 313, take Old Easton Road Northeast to the Doylestown Airport entrance, at parking lot look for the "Pole Hangar". Follow your nose

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
