

The FAA Safety Team presents:

## **There is a VIP TFR - Now What?**

At this timely seminar we will discuss the recent Bedminster VIP TFR's which may become more commonplace. We'll discuss the challenges they bring along with potential solutions. We've noticed a very positive approach to both the design and implementation of this TFR, and it's become apparent that officials, both local and federal, have worked to permit as much activity as possible without compromising safety. We'll go over the results of these efforts and what we can expect during the times of implementation. Additionally, we'll cover interception procedures... just in case. Please register for this event as seating is limited!!!!

Folks from both the Secret Service & United States Coast Guard have been invited and are enthusiastic about the seminar. Schedules permitting, they hope to participate, speak, and answer questions.

**Directions:** Please join us in the lower level meeting room at the Clarence Dillon Public Library.

### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
