

What Just Happened ?

Our goal at this interesting seminar is to prepare pilots to deal with abnormal emergencies that could unnecessarily lead to a Loss of Control. Sometimes things happen that are out of the ordinary. What will you do in the event of a bird strike. Or maybe you left your pitot static cover on or a door pops open during takeoff. Will you be prepared? Come join us for a discussion of abnormal emergencies, and feel free to share any of your experiences of unusual emergencies, that others can learn from. Please register online at the link below as seating is limited!!!!

Directions: Meeting will be held in lower level meeting room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
