

The FAA Safety Team presents:

CFI/DPE Open Forum (AVP)

At this interesting meeting, we will discuss best practices for teaching Airworthiness Awareness in the hope that students will learn how to avoid system/component failures. We will talk about best practices in preparing students to deal with an engine failure in flight. We will also discuss how as an operator of an aircraft, a pilot can survive a Ramp Check.

Flight Instructors, Ground Instructors, Designated Pilot Examiners, and Instructors in training are welcome and encouraged to attend. Join your flight instructor colleagues and take an active role in improving safety in flight training! Seating is limited please click on the link below and register TODAY!

Directions: Conference room in the ARFF (fire station), parking available in lot across from the fire station.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
