

Allentown FSDO CFI/DPE Forum

Please join us at this open forum with CFI's and DPE's to discuss teaching emergencies. As Instructors it is important to teach students to be prepared for emergencies, using Safety Risk Management which identifies hazards, assesses and manages associated risks to acceptable levels. Successful flight risk managers train to attain and maintain proficiency. This ensures that they will have the knowledge and skill required to deal with emergencies. And the continuous risk management process allows them to identify and deal with small problems before the progress to big ones.

Please click on the link below and register as seating is limited !!!!

Go to second floor of Hangar 7, to Classroom 1 of Lehigh Carbon Community College.

A message from the National FAASTeam Manager
