

Stay on the Right Path!

The busy flying season is here and in this presentation we'll talk a little bit about Loss of Control Accidents and recommendations from the General Aviation Joint Safety Committee work group that studies loss of control. We'll define and discuss stabilized approaches and go-arounds. Finally, we'll give you some tips and tricks that will help you to avoid loss of control in any aircraft.

Come on out and join us for great discussions, please register at the link below as seating is limited!
