

CFI-DPE Forum - Airworthiness

This will be an opportunity for CFI's to discuss best practices in teaching their students the responsibility that the PIC has in determining airworthiness, and what to do when a component fails. DPE's will review common mistakes that they see when testing applicants.

We encourage non-CFI's who are training for their CFI, or plan to train for their CFI in the future to also join. The content of the seminar will be tailored to CFIs, but will benefit all pilots.

Follow directions to Sky Manor Airport. The meeting room is in the building next to the parking lot. It's the first floor of the house.
